

TURBOCASER™ EXPRESS

The drill-thru reaming system

- ⊕ Casings and liners on depth
- ⊕ Drillable motor
- ⊕ No string rotation

TURBOCASER™ EXPRESS

The drill-thru reaming system

Deep Casing Tools specializes in the design and manufacture of high quality casing and completion tools.

The Turbocaser™ Express is a high-speed drillable reaming system that enables drilling teams to land casings and intermediate liners at target depth first time.

The unique internal assembly can be drilled through in minutes after normal cementation in one cost effective operation.

The Turbocaser™ Express reduces non-productive time in demanding wellbore conditions; increasing wellbore integrity while decreasing operating costs.

Features & Benefits:

- Casing and liners to TD first time every time.
- Eliminates the need for wiper trips.
- Low pump rate and low pressure.
- High speed reaming.
- Drillable Motor - drills out in minutes.
- Same drill out process as a standard float shoe.
- No string rotation - suits all rig types.

Unit 2, 51 York Street
Aberdeen, AB11 5DP

FOUR STEPS TO FIRST TIME CASING PLACEMENT

1. Run casing/liner with Turbocaser™ Express - no need to rotate the casing .

2. Ream through obstructions to land casings at target depth

3. Cement casing and reamer in place.

4. Drill-thru into new hole.

Turbocaser™ Express Performance Overview	
Torque	Up to 2400 Ft/Lbs*
Reamer Speed	Up to 1500 RPM*
Available Sizes (additional sizes available on request)	7" 7 5/8" 9 5/8"

*Contact Deep Casing Tools for size specific performance data
